

## PRODUCT DATA SHEET

# VENOS - LONG LIFE COOLANT

### DESCRIPTION

**VENOS - LONG LIFE COOLANT** is a liquid substance used in vehicles to regulate engine temperature. It prevents freezing in cold temperatures and overheating in hot conditions, ensuring efficient engine performance. Coolant circulates through the engine and radiator, dissipating heat and protecting against corrosion.

### APPLICATIONS

- Long-life coolant is designed for modern vehicles and machinery, offering extended protection against corrosion, overheating, and freezing. It is suitable for a wide range of applications, including cars, trucks, motorcycles, industrial equipment, and power generation systems, ensuring efficient and durable cooling performance over an extended service life.

### FEATURES AND ADVANTAGES

- Heat Dissipation
- Enhanced Corrosion Protection
- Anti-Freezing

### PRODUCT PERFORMANCE CLAIM

- ASTM D3306(III), Based on coolant concentrate conforming to BS 6580:2010

### TECHNICAL DATA PROPERTIES

NAME	METHOD	UNITS	VENOS - LONG LIFE COOLANT
Boiling Point of Engine Coolants	ASTM D1120	°C	108
Freezing Point, Coolant 50% vol in water	ASTM D3321	°C	-36
pH, Engine Coolants / Antirusts	ASTM D1287	-	8.5
Density @ 20C	ASTM D1122	g/ml	1.07
Water	ASTM D1123	% wt	40% - 50%
Color	Visual	-	Blue/Red/Green

**VALUES SHOWN HERE ARE TYPICAL AND MAY VARY**

### Health and Safety

Based on available information, this product is not expected to produce adverse effects on health when used for the intended application and the recommendations provided in the Material Safety Data Sheet (MSDS) are followed. MSDS's are available upon request through your sales contract office, or via the Internet. This product should not be used for purposes other than its intended use. If disposing of used product, take care to protect the environment.
